DRY INSTALLATION**

The revolution has arrived

Inspired by years of experience in the sector

QUICK *Gres*

Quick Gres system

What is Quick Gres?

Quick Gres is a new DRY CERAMIC, it is a system designed for the quick installation of ceramic flooring without the need of construction works or adhesives. This is possible thanks to the three main components of Quick Gres:

- **IXPE Mat:**
An insulating mat made of IXPE Polyethylene.
- **WPC (Wood and Plastic Composite):**
Allows the assembly of pieces without the need of construction works or adhesives.
- **6mm XTRA Tile:**
Ultra-thin ceramic pieces that provide the necessary flexibility to the system for optimal functioning.

Advantages of Quick Gres

Quick Gres combines all the advantages of ceramic material with great ease of installation:

- **Durability:**
Ceramic has high abrasion resistance, making it ideal for high-traffic areas.
- **Easy Maintenance:**
It is easy to clean and maintain, and resistant to stains and cleaning chemicals.
- **Variety of Designs:**
A wide range of models is available, making it adaptable to different decorative styles and personal preferences.
- **Hypoallergenic:**
Does not retain dust or allergens, which is beneficial for indoor air quality.
- **Fire Resistant:**
Non-flammable material that does not emit toxic fumes in case of fire, contributing to home safety.
- **Low Water Absorption:**
Waterproof and suitable for wet areas such as bathrooms and kitchens.
- **Sustainability:**
Our ceramics are made from recycled materials, contributing to environmental sustainability.
- **Heating:**
Compatible with floor heating systems.
